

PRE-OPERATIONAL CHECKLIST FOR A

water bowser

DRIVER'S NAME		DATE	
MAKE OF VEHICLE	REGISTRATION	KM READING	KM

All the items in the "ITEMS TO BE CHECKED" column must be checked by operators before operating equipment.

Indicate whether each item is in a serviceable condition (using a tick) or not (using a cross). If irrelevant, write n/a in the comments section. If defective, comment on the exact nature of the defect and do not operate until reported and corrected. A new checklist then needs to be filled in and retained indicating that all parts are serviceable.
